

Throttle Linkages

Throttle Linkages and Returns Quick disconnect throttle linkages include carb bushings for most carburetors. Heavy duty aluminum rods can withstand severe engine vibrations. Linkages can be removed from carb in 5 seconds.

Fuel Filters

These are In-Line, hard anodized fuel filters. The patented stainless steel filters (#5536402) are used at 60 PSI for the fuel injected GM-LS1 engines and work the best for alcohol applications. The quality of these filters is approved by the FAA. Bring aircraft technology to your race car!

Fuel Directors

Red anodized aluminum fuel logs incorporate a sliding nut for quick installation and removal. Single feed log has a -8AN inlet and dual feed log has 3/4"NPT inlets. Both have 1/8"NPT ports for fuel pressure gage.

Aluminum Carburetor Covers

From NASCAR to the short tracks in your backyard
"Our Quality Is On The Line."

Lightweight Shifters

Kluhsman Bert/Brinn Shifters feature aluminum dual handles for use on rough tracks and irregular terrain. Levers can be locked in with simple detent so they can't jump out of gear. Shifters include shifter rods, mounting clevis, pins, and mounting brackets for complete installation. Heim ends are included.

Lightning Gear Fillers

The KRC "Lightning Gear Filler" will fill a rear end with 4-5 quarts, 90W oil FAST! This lightweight, 7 lb tank can be filled with 60PSI air pressure and controlled by a manual valve. A 100PSI liquid fill gage and a dipstick in the cap will help you pre-measure oil to speed the rear end changing process up. Fast, convenient, lightweight. **PATENT PENDING**

Cyclone Thru-Hole Power Drive System

KRC's air ratchet has patented features no other air ratched offers on the market today. The ratchet is uniquely designed having fewer moving parts for longer life and greater dependability.

Piston Vice

Holds pistons securely at any angle up to 30 degrees.
