

# **KRC Fuel Filters**

**approved by FAA for use in  
King Air Fuel System**

**Also approved for use in your race car!**

The KRC-4708 was recently approved by The Federal Aviation Administration for exclusive use on Raytheon (Beechcraft) King Air Models Twin engine aircraft. This filter cleans all jet fuel for long range operation and has a STC as the only filter approved for use in King Air 65-90s.
