KRC Facility

Titan Fuel Pump Rack

KRC Showroom Floor

MfgProfile

We are a full service custom machine shop with ISO 9001 including design certification. We do design, development, manufacturing, packaging, and shipping for components used in NASCAR Racing, CASE equipment, Modine, and other industrial/aerospace applications.

We have full CAD/CAM capabilities. We have seven multispindle (various OD's) screw machines plus 3 and 4 axis milling and turning equipment. Heat treatment and anodizing are done on a contract basis. 80% of our business is NASCAR with the balance being industrial/aerospace.
