

# NEW Wheel Studs

(800) 814-5745

"Our Quality Is On The Line"

- The **\*\*NEW\*\*** KRC Wheel Studs have been tested by Anderson Laboratories for safe use in NASCAR competition.
- Information on the stud makes it easy to identify the stud part for re-order/re-use.
- L1 length, KRC PN# and Manufactured Date engraved on each part.
- Wheel studs are produced under strict control standards with ISO 9001 design process.
- 190,000 +PSI alloy steel.
- Threads rolled after heat treatment.
- Special Baked on dry film gray-moly lubricant reduces galling and assures consistant clamp loads.
- Custom lengths available.
- Wide screw flat for stud retention.

## Check out more KRC products:
