

Throttle Linkages

Quick disconnect throttle linkages include carb bushings for most carburetors. Heavy duty aluminum rods can withstand severe engine vibrations. Linkages can be removed from carb in 5 seconds.

Fuel Filters

These are In-Line, hard anodized fuel filters. The patented stainless steel filters (#5536402) are used at 60 PSI for the fuel injected GM-LS1 engines and work the best for alcohol applications. They are approved by the FAA. Bring aircraft technology to your race car!

Fuel Directors

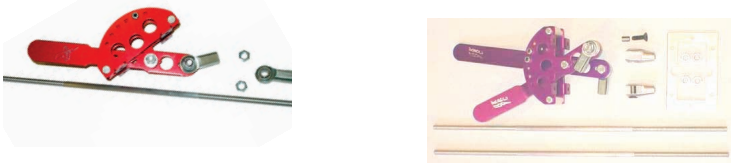

Red anodized aluminum fuel logs incorporate a sliding nut for quick installation and removal. Single feed log has a -8AN inlet and dual feed log has 3/4"NPT inlets. Both have 1/8"NPT ports for fuel pressure gage.

Great on sport mods!

Lightweight Shifters

Kluhsmann Bert/Brinn Shifters feature aluminum dual handles for use on rough tracks and irregular terrain. Levers can be locked in with simple detent so they can't jump out of gear. Includes rods, mounting clevis, pins, mounting brackets, and Heim ends.

From NASCAR to the short tracks in your backyard
"Our Quality Is On The Line."

Aluminum Carb.Covers w/Speed Nut

Cyclone Thru-Hole Power Drive System

KRC's patented air ratchet is uniquely designed having fewer moving parts for longer life and greater dependability.

KLUHSMAN KARTING PARTS

Tillotson Carburetor Adj. Knob Kit

Different lengths for easy adjustment. Thumb notch for easy indexing

Laser Toe Gauge

For ease and accuracy of aligning Kart chassis squareness and front end.

Patented Sprocket Alignment Laser

"Original Designer KRC"-Laser technology for accuracy in sprocket alignment on 35 chain, 219 chain and 40 chain.
